

When one Pharaoh's inconceivable vision took hold of a civilization, the power of intellectual greatness became the foundation for centuries to come.

iXe=STM

The formula for business **s**uccess requires two elements—the **i**ndividual and the **e**nvironment. Remove either value and success becomes impossible.

That's what we do for business—we multiply individual talent with the right environment to make great things happen—just as The Egyptians did centuries ago.
